

## PROJECT INTRODUCTION

SpaceTravel features an innovative flagship app "BUBU," which is powered by superior geospatial technology, blockchain and augmented reality (AR), BUBU is a lifestyle app that enable users to navigate the best destination deals around them while enjoying an innovative gamified reward experience.

## STANDOUT FEATURES

<p><b>Military Grade Maps</b> Find your destination with our indoor and outdoor maps</p>	<p><b>Real-time Traffic Conditions</b> Never spend your time sitting in a traffic jam again.</p>
<p><b>Seamless Payments</b> Seamless Payments, both via crypto and traditional payment gateways</p>	<p><b>Merchant Listings</b> Locate stores, review products and snag deals.</p>
<p><b>Tourist Attractions</b> Find places of interest and related visitor information.</p>	<p><b>Loyalty Programs</b> Earn points and rewards when you participate in our activities.</p>
<p><b>Gamification</b> Immerse yourself into games that involves real-life like scenarios.</p>	

## PROBLEMS & SOLUTIONS

P	Indoor mapping is rarely available	S	BUBU combines the best of both: indoor and outdoor mapping
P	Traditional map technologies have limited functions	S	Customer-centric location-based functions such as restaurant reviews, attractions discounts, experience curation
P	Chinese tourists' painpoints on maps and payment	S	BUBU is integrated with Chinese social media platforms and payment providers such as UnionPay
P	Loyalty points are non-exchangeable and often gets wasted	S	BUBU offers reward points are that redeemable against MAC Tokens, ensuring its liquidity, exchangeability and usability

## WHY CHOOSE BUBU?

<p>Tokenization of reward points</p>	<p>Existing infrastructure with military grade satellite tech</p>	<p>Strategic partnerships with industry leaders</p>
<p>Liquidity of the token offered through exchange listing</p>	<p>Futuristic business model</p>	<p>Intrinsic Value of the token</p>
<p>Self-sustainable operations</p>	<p>Trustless review mechanism</p>	<p>Multi revenue streams</p>
<p>Team expertise</p>
